Summary

Full Stack Developer with experience building production-ready applications using React, Angular, Node.js, and cloud platforms. Delivered software for 200+ users, engineered scalable APIs, and collaborated on multi-person projects with a focus on quick learning and feedback.

Experience

Full Stack Developer Intern — Orage Digital, Mumbai

May 2025 – July 2025

- Developed 5+ production-ready and scalable web applications using Angular, React, and Node.js, serving 200+ active users and improving workflow efficiency.
- Designed analytics dashboards with real-time data visualization, dynamic filtering, and export features, improving staff decision-making speed and productivity by nearly 35%.
- Engineered 12+ secure RESTful APIs with authentication, logging, and error handling, ensuring smooth communication between SQL/NoSQL databases and frontend systems while supporting scalability.
- Implemented an AI-based document processing system using vector databases and DigitalOcean Spaces, enabling automatic classification and extraction from 100+ documents with over 90% accuracy.

Projects

DevArc (React, TypeScript, Tailwind, Vite, Neon, OpenRouter API)

[GitHub](#) 

- Built an AI platform that generates documentation and analyzes code using OpenRouter models, reducing development time by 30%.
- Designed responsive interface with React and Tailwind CSS, adding GitHub OAuth for repository integration across 50+ projects.
- Integrated multiple OpenRouter AI models to provide real-time code insights and suggestions for improved code quality.

WebExtract (Next.js, TypeScript, Prisma, PostgreSQL, Puppeteer, Stripe, Clerk, OpenRouter API)

[GitHub](#) 

- Architected workflow automation tool that converts natural language instructions into web scraping tasks, reducing manual data processing by 40% and managing 10+ concurrent extraction processes.
- Integrated Stripe payment processing and Clerk authentication, delivering a complete, production-ready SaaS workflow.

Iotian (React, Tailwind CSS, Ant Design)

[GitHub](#) 

- Programmed e-commerce platform with product filtering, search functionality, and cart management for 100+ products.
- Optimized application performance using code splitting and lazy loading, reducing initial load times by 20%.

Technical Skills

Languages: Python, JavaScript, TypeScript, C++, SQL

Frontend: React, Next.js, Angular, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, Flask, FastAPI

Databases: PostgreSQL, MongoDB, MySQL, Neon

Cloud & Tools: Docker, Git, DigitalOcean, Vercel

Education

K.J. Somaiya College of Engineering, Mumbai — B.Tech. in Computer Engineering

Oct 2022 – June 2026

- CGPA: 9.06/10.0

K.C. College, Mumbai — Higher Secondary Certificate (Science)

2020 – 2022

- Percentage: 78.17%

Achievements

- 3rd Place — ACM Frontend Hackathon (2024):** Led a team of 4 developers to create a complete frontend app in 16 hours, focusing on rapid iteration, collaboration, and shipping a working product under pressure.
- Event Coordinator — KJSCE Symphony Festival (2023):** Organized Shield Dance competition for 50+ participants with 500+ attendees.
